

WARRANTY

TORMACH EXTENDED PRODUCT WARRANTY

COVERAGE

A Tormach Extended Warranty provides a limited extension to the standard Tormach product warranty for select products. All terms and conditions of the standard warranty apply, except as noted below.

The standard product warranty is for a period of 12 months. The initial purchase of the extended warranty provides 24 months of coverage, comprising of 12 months standard warranty coverage plus 12 months extended warranty.

EXCLUSIONS

The Extended Warranty covers electronics and electrical components.

The Extended Warranty **does not** cover:

- Damage from lightning and/or improper electrical distribution systems.
- Mechanical components including ball screws, bearings, spindle tapers, or other mechanical components.
- Wear parts including way covers, drawbars, painted surfaces, decals, and other cosmetic features.
- Accessory items including, but not limited to: automatic tool changers, probes, electronic tool setters, and 4th axis tables. Extended warranties cover the above listed components of base machine only.

RENEWAL

The Extended Warranty can be renewed indefinitely. If renewal occurs **after** any prior warranty expires, a 30-day holding period applies.

HOLDING PERIOD

If the Extended Warranty is purchased **after** any prior warranty period expires:

- For the first 30 days following the purchase, you can't make any warranty claims.
- The 12-month extended warranty starts after 30 days, and then you can make warranty claims at any time.

If the extended warranty is purchased **before** any prior warranty period expires, there is no 30-day holding period — you can make warranty claims at any time.

FULFILLMENT

Components replaced under the Extended Warranty may be new or factory refurbished. This decision will be made at Tormach's discretion.

SHIPPING

Shipment for components replaced under warranty is at no charge for domestic customers. The shipment method is at the discretion of Tormach. In general, delivery will be by UPS ground service for domestic customers and UPS or DHL for international customers. If overnight or express delivery is requested, additional fees will apply.
